

SUMMARY

I have over five years of experience as an English–Turkish translator, specializing in human translation and Machine Translation Post Editing (MTPE). I actively use localization platforms such as Transifex and Crowdin to manage and streamline workflows efficiently. I focus not only on linguistic accuracy but also on cultural relevance and readability, ensuring that the content resonates with the target audience. I'm committed to maintaining consistency, managing terminology effectively, and enhancing overall clarity in every project I work on.

SKILLS

- Editing skills
- Proofreading
- Multitasking
- Fast typing speed
- Website localization
- Team collaboration
- MTPE

EXPERIENCES

Translator • MEGA

Remote • April 2025 to Current

- I translate and localize MEGA's website, web application, browser extensions, desktop applications and mobile applications into Turkish, ensuring clarity, accuracy, and cultural relevance for Turkish users, as well as the website of Transfer.it, which is supported by MEGA.

Translator • Hotbit

Remote • June 2021 to August 2021

- I worked on translating Hotbit's website into Turkish, ensuring accurate and culturally appropriate localization.

EDUCATION
